

Summer Maintenance Person

Morzine, French Alps | 15th June – 15th September

30 hours per week

AliKats is an independent luxury chalet company operating a portfolio of high-quality properties in Morzine and Montriond. We are committed to delivering exceptional guest experiences and maintaining our chalets to a consistently high standard.

We are looking for a practical, responsive Maintenance Person to support our properties throughout the summer season.

This is a hands-on, reactive role focused on resolving maintenance issues promptly as they arise, maintaining outdoor spaces, and ensuring hot tubs and properties are consistently well presented for guests.

The Role

You will be responsible for responding to maintenance issues raised by guests and the operations team across our chalet portfolio.

Speed, efficiency and sound judgement are essential. Many tasks will be small but time-sensitive — the right person will take pride in fixing problems properly and calmly.

Importantly, this role involves assessing issues, resolving what is appropriate at your skill level, and clearly escalating more complex work to management so that qualified local tradespeople can be instructed where necessary.

A company vehicle and tools will be provided for work use across the resort.

Key Responsibilities

Reactive Maintenance

- Responding quickly to maintenance issues raised during guest stays

- Diagnosing and repairing minor to moderate issues efficiently
- Minimising disruption to the guest experience
- Assessing more complex problems and reporting them promptly to management

General Property Repairs

- Doors, windows and fixtures
- Appliances
- Basic plumbing
- Basic electrical
- Minor carpentry and joinery repairs (adjusting doors, hinges, fittings, small woodwork fixes)
- General wear-and-tear maintenance

Escalation & Contractor Coordination

- Making sensible assessments of issues beyond your remit
- Clearly flagging complex or specialist repairs
- Supporting access for approved local tradespeople when required

Hot Tub Maintenance

- Full hot tub changeovers at weekends
- Daily hot tub checks during the week
- Water testing, chemical balancing and cleaning
- Identifying and resolving minor issues

Exterior & Grounds Maintenance

- Basic gardening (lawn care, trimming, tidying outdoor spaces)
- Exterior upkeep of properties
- General outdoor presentation

Property Upkeep

- Light painting and decorating where needed
- Small repairs and adjustments between guest stays

Team Support

- Communicating clearly with the operations team
- Working professionally around guests

- Representing the company positively when on site

Working Pattern

- **30 hours per week**
- **1 full day and 2 half days off per week**

Flexibility is important, particularly around weekend hot tub changeovers and guest needs. This works both ways to allow the right candidate sufficient time to enjoy all the aspects of mountain life such as biking as long as work load is managed.

Skills & Experience Required

- Solid hands-on property maintenance experience
- Ability to troubleshoot and solve problems independently
- Good judgement about when to repair and when to escalate
- Confident with basic plumbing and electrical repairs
- Some carpentry/joinery experience preferred
- Comfortable working outdoors
- Full manual driving licence valid in Europe
- Good spoken English

Preferable

- Basic/conversational French
- Previous experience maintaining hot tubs or pools
- Previous experience in hospitality property maintenance
- Right to work in France (EU passport or Carte de Séjour)

What We Offer

- Competitive seasonal salary (dependent on experience)
- Accommodation in our lovely staff chalet in Montriond. Wifi and bills included.
- Company vehicle for work use
- Opportunity to live and work in Morzine over the summer
- Established, supportive team
- Varied, practical work across high-quality properties

This role suits someone practical, organised and calm under pressure. It requires someone reliable who can fix what they reasonably can, knows their limits, and communicates clearly when specialist input is needed.

Please send your CV and a short cover letter to jobs@alikats.eu.
